## SUPERINTENDENT FOR STEEL PROJECTS

Are you an experienced Superintendent with a passion for excellence in steel projects? Look no further!

Our company seeks a dedicated and skilled Superintendent to oversee our steel projects with precision and expertise.

### Key Responsibilities:

- 1. Project Oversight:** Lead and manage all aspects of steel projects, ensuring they are completed on time, within budget, and to the highest quality standards.
- 2. Team Leadership:** Supervise and coordinate the activities of project teams, including subcontractors and field personnel, to ensure smooth project execution.
- 3. Safety Compliance:** Uphold strict safety protocols and regulations on-site, always promoting a safety culture among team members.
- 4. Quality Assurance:** Maintain a keen eye for detail and adherence to project specifications, ensuring the delivery of top-notch steel structures that exceed client expectations.
- 5. Communication:** Foster clear and effective communication channels between stakeholders, providing regular updates on project progress and addressing any concerns promptly.

## **Requirements:**

- Five (5) years of proven experience in Construction Management as a Superintendent in Steel Construction projects, with a strong understanding of steel fabrication, erection, and installation processes.
- Bilingual: English and Spanish
- Excellent leadership and organizational skills, with the ability to motivate and drive project success as a team player in a productive and cross-functional team environment.
- In-depth knowledge of AISC/AWS industry standards and regulations, committed to promoting a safe working environment.
- Strong analytical and problem-solving abilities to make sound decisions under pressure.
- Effective verbal and written communication skills, with the ability to build rapport with clients, team members, and stakeholders.
- Experience scheduling, tracking, and managing field labor, including equipment and associated budgets.
- Advanced understanding of blueprints, shop drawings, and specs and the ability to layout and build jobs accurately.
- Strong computer software skills like Office, Procore, Project, etc.
- Construction Administration (managing RFI's, Submittals, CO's, etc.)
- Ability to delegate and drive results through accountability.
- Take pride and ownership in the quality of workmanship and ensure projects are timely completed.
- Promote a safe working environment and ensure compliance with policies and procedures

## **EMPLOYEE BENEFITS**

- **Health insurance (Medical, Dental, Vision).**
- **Paid time off (vacation, sickness, holidays).**
- **401K with matching contributions.**

## **Join Our Team:**

**If you are ready to take on a challenging role in the dynamic world of steel projects and contribute to the success of our esteemed company, we want to hear from you! Join us in shaping the future of steel construction projects and make your mark in an industry that values excellence and innovation**
